

May 22, 2013, 5:57 PM

Hello Ryan:

The reason people don't like religion is because of what the Bible says! "U id a SINNER!!" It says that over and over!! And the reason why is the Fact in Truth that indifference produces indifference! Which is ZERO! No connection at all!! For, the way people connect is by the Facts in Truth of each other!! Usually found out by an argument and a fight!! Then they see they're equals! And have a genuine respect for one another. And they become friends! It's why the Bible keeps telling us we are no good! That causes one to get mad at God!! And that causes one to find out He's real and then a genuine respect for God!! This fight is usually against life.

The Truth and its Facts can't be known by Baby Talk!! This day old world uses Baby Talk for everything! It doesn't use the Adult Talk of God, the Father, at all! A word out of His mouth, as Matt 4:4 tells, is  $m = hf/c^2$  grams. Where  $m$  grams is of the Body while  $f$  hertz is of the Soul. That  $h$  factor is a constant of Planck got in 1900. And Romer got the  $c$  constant in 1675. That word out of His mouth is known in math-physics as a law of Louis de Broglie that he got in 1924. It proves what magicians do as the Facts in Truth. They truly do float their ladies in air! A magician here floats himself in the air!! Sailing along the ceiling!! De Broglie's law verifies it as the Facts in Truth! Same magic Jesus & Peter used walking on the top of the water at Matt 14:22-33, Ryan. The known laws in math & physics verifies all scriptures of this day old world as Facts in Truth.

But probably the Fact in Truth of solidarity is Matt 5:45. This world is dead without that source of eternal life. That's collected by the leaves of plants & encapsulated in the capsules made by the plants. Plants draw up water & ingredients from the ground and also breath in carbon dioxide gas by their leaves and make the capsules of that stuff. And stores that sunshine, got by leaves, in the capsules as fruits and veggies. Food for all!! The plants breath in carbon dioxide gas & breaths out oxygen gas!! Animals grub for food. And they are plowing the lands by that activity!!

Lions kill vegetarian animals and eat their flesh. This is done by order of the CEO ruling this day old world here on This Island Earth. That odd man is seen in pictures of Adam, Eve, Tree and that odd man. The odd man is the Chief Executive Officer ruling this world. The orders is Kill and Eat. The crotches of Adam and Eve are covered by a fig leaf. Because sex was made evil by the Father of Lies. That's Dracula at Judges 4:21, John 8:44, Dan 7:4, Ezek 28:11-19 and Rev 12:3-4. Dracula made sex wild so he has a steady supply of freshly born infants he kills for their blood and drinks it. Dracula is a vampire. His associates do the same! They're the fallen high priests of God, the Father. They killed the city of Atlantis by their aim to own all of it! It's all 125,447 trillion, trillion cubic light-years of The Legendary Lost City Of Atlantis, Ryan. The size & the shape of Atlantis was got by Einstein. I completed the math he used, and then got Atlantis all mapped out and spiritual vehicles designed for the expeditions in Atlantis. To get our lost kin there back to life at home!

Due to Dracula's greed, they all died and lost their bodies. And now are only souls without a body. The ashes of their bodies are in Oort's Cloud of 257 trillion tons of dust!! The Body of Atlantis is dismissed same as Elijah did at 2 Kings 2:9-18 and seen by Elisha. The known laws in math-physics confirms that body-dismissals and body recalls at John 20:19-20. That's also in de Broglie's equation above! When  $f = 0$  then  $m = 0$ , too!!

So, all of the Body of Atlantis vanished!! All but that cloud of dust in Oort's cloud! For that's of bodies wrecked by Dracula's aim to own all!!

There's a natural life cycle between all of us which Dracula destroyed!! That is in animals & plants as follows. The animals breath in oxygen gas & breath out carbon dioxide gas. The plants breath in carbon dioxide gas & breath out oxygen gas. In short, they complement one another in that and are making air for all of us as well as food! That balance also goes on with the other states of matter! But it's complicated by microbes and viruses that complete it. There's good creatures and evil ones, too. The evil ones were caused by the Wild Law of Dracula. The odd man in the pix of Adam and Eve is the serpent at Gen 3:1-7. That Tree is the evil tree. The serpent man is a stooge of Dracula. Dracula died by his evils. So he was replaced by his stooge. That's the odd man in the pix of Adam & Eve.

In short, Ryan, this universe was full of air, food, animals, plants and people!! The City Of Atlantis!! Dracula killed animals & got us addicted to eating meat!! With animals dead, plants died, too!! And no longer air and food made anymore. Result is all died by suffocation and starvation! Leaving Atlantis a void of airless space devoid of all life!! A vacuum!! As Space above now is. Frank Drake listened to it since 1960 & no life!!

Also, eating meat is an abnormal food from Adam to Noah. And resulted in abnormal excrement. It's the hell's fires of fission power! Nations made A-bombs out of it and erased all cities that was on earth 500,000 years ago! Leaving all lands a greenish-colored rock same as those underground A-bomb tests done here, Ryan. It's why all scriptures calls that ancient manure an abomination! Because of the shit that erased all cities off of earth by those A-bomb-in-nations of that old shit. A-bombs made of that old shit!! And that's actually why all frown on shit today & avoid shit! It was avoided and frowned on in days of Adam & Eve!! Eons ago and still same today!! The Nov-94 issues of the Scientific American magazine shows ages of earth from 3 to 15 billion years old at pages 48 to 55. But what I heard in the 1950s is 5 billion years old. And it's what I've gone by.

Dracula thought he can get all of Atlantis as his property by getting us stuck on eating meat! He didn't know that would kill the whole creation! And all he got was that great pile of bones!! And a casket to sleep in!! The Gran Dolina Grotto was dug out. It was full of our bones, & shows we all appeared only 11 years old a million years ago, Ryan. We never aged & never died back then. For them bones was thrown in there 800,000 years ago. Aging and dying came in the ice ages battling Dracula & his hordes. They lost because no backing and worse!! Cannibalism broke out in camps of Dracula. Members ran away & joined camps of vegans. But kill animals to get meat to eat!! Result is vegans puked & passed out by the shock of that!! But now all eat meat and God okayed it at Acts 10:9-16. Only one rule. Don't eat animals alive at Gen 9:4. We beat Dracula by the backing at Matt 5:45, Ryan. And enough. With God, the Father, we can raise all of Atlantis back alive. I have it all mapped and starships designed and ready for expeditions in Atlantis. Raising it all back alive. That's the Rapture clergy told in the last century. Take it easy, but do it & have a great day!!

A neighbor,

God, the Father, bless you & yours.

PS, sunshine is the divine blood of Christ. It's indicated at Rev 7:14.

## BASIS OF ALL WE KNOW IN THE RIGID SCIENCES OF MATHEMATICAL PHYSICS

Thevenin's law of 50-50 fair trade is in math-physics of radar microwave systems and their waveguides. For that is used to match power sources to loads by these waveguides. Also in microwave ovens. Thevenin's law is in cars also. For the transmissions, in cars, do impedance matching between engine and rear wheels of the carload. Thevenin's formula is  $Z' = Z_1 Z_0$  as units of square ohms. Where  $Z$  ohms is Thevenin's transfer impedance &  $Z_1$  ohms is input impedance while  $Z_0$  ohms is output impedance of that box of transmissions. As either transformers of electric power or the gears for mechanical power. The formulae are the same for both. But are values for Mechanics in gear ratios and of Electronics in transformer turns ratios.

The point is that's all in math-physics as known laws. So is love & hate in math-physics as Planck's law and equation for love and Geiger's law & equation for hate. However, faith doesn't end till the last rebel that's without a cause admits it. Told at John 15:12-25. And now all written in this 257 trillion tons of dust from the sick excrement of eating carrion that's ashes of the hells' fires of fission power. Al Dracula created it by his creation of The Grim Reaper that killed Porky Pig and ate as that strange food of The Strange Legionnaires. Gen 3:1, Judges 4:21, Dan 7:4, John 8:44 & Rev 12:3-4 is the Father of Lies. Judges 4:21 shows he is Al Dracula. Full name & title is Count Alucard de Sisera el Dracula. As the law of hate shows, Dracula has no family. Only smashed atoms, the broken life cycles, wrecked molecules & deadly ashes of hells' fires of fission power. As nuclear wars rage in the deadly ashes of fission power fires!!

Planck's law is of love, sunshine, vegans, family circles, musical atoms of Newton's spheres, endless profits, life cycles and all good ways. The law of hate is darkshine of evil lies, endless losses, predators, ghouls and the half-life of the smashed atoms of fission power & hells' fires!! Predator modes are self destructive while vegan modes are self constructive. Predator modes are one-way going because unable to produce. And it ends in the grave case in all cases of preying on all the life and good.

In short, Al Dracula created Wild Law of kill & eat carrion. The outcome of carrion ate is shit instead of the healthy poop of vegans. And worse! Because nations take that shit and make abominations out of it. As said, shit is the deadly ashes of fission power!! Nations make A-bombs of it & destroys a whole city by a single A-bomb-in-nation!! That is why all the scriptures calls it an abominable abomination. But NONE prints "shit" at all! NEVER!! Because that's a bad word!! Of King A Bad Done at Rev 9:11.

---

Hells' fires goes out as soon as a world majority rule decision votes to repeal Wild Law in favor of the Sane Law of God, the Father. Our incomes jump from less than \$1.25/day to over \$2,750/day! For each one of all 7 billion of us people. Starships are designed & ready to be implemented & explore our legendary lost city of Atlantis. 1.25447E29 cubic light-year volume. Starships extend reach of our souls!! As cars do for our bodies.

All we know is based on the biblical light-speed constant!! Got by Romer in 1675. As  $c = v[\sin(90A/B)] = 185,912$  miles/second. A is Rev 9:5 while B is at Rev 13:5. And  $v = 186$  miles per second. It's updated to 7 times Romer's data-light speed when He comes. As Isa 30:26 tells. All the laws in math-physics confirms all the mysteries in the Scriptures. Such as in de Broglie's law of  $m = hf/c^2$  grams. As  $h$  &  $c$  are constants. So, only  $f$  &  $m$  are variables. Magicians reduce  $f$  hertz &  $m$  grams of their ladies is reduced and they float in air then. We all use those spiritual powers in all our daily activities. Newton's law shows it takes 35.34 horsepower to lift one pound off the earth!! The Saturn 5 Rockets also verified it.

# THE DIVINE POWER OF A HUMAN BEING

- (1)  $P = 3qT^4WH^3O$  (watts)
- $q = 5.67283E-12$  watts/square-centimeter-quartic-kelvin.  
 $T = 310.15^{\circ}K$ ; temperature of the human body in kelvins.  
 $W$  = weight of the human body in kilograms.  
 $H$  = height of the human body in centimeters, (cms).  
 $O = 71.84$  and is a factor of human body shapes.  
 $x = .425$  and also a factor of human body shapes.  
 $y = .725$  and a third factor of shapes of human bodies.

Formula (1) is made of two other formulae multiplied together. Namely:

- (2)  $P_1 = qT^4$  (watts/sq-cm)
- (3)  $A = W^3H^3O$  (sq-cms)

Formula (2) is the power intensity got by Stefan in 1879 by his study of hot wires radiating heat. Stefan's law. Formula (3) is for skin area got by Dubois in books on biochemics of human beings from weight and height. (2) is in physics books. That factor, 3, is from Mach's law. Gross power always divides into three equal parts of engine, weather & carload. That law is in everything. The Father of Lies tried to change it. And failed.

Formula (1) shows a human being of 175 pounds & 5'11.5" tall has average power of 3,154 watts. Food nets only 44 watts for this guy. As that also divides into 3 equal parts. He ate 132 watts. And nets only a 3rd of it. So of the gross 2,720 food calories ate, a net of only 3,796,032 joules of food energy was got. Dividing that number of joules by 86,400 seconds in a day, and it comes to 43.936 watts. Or that 44 watts. That guy's own spiritual power is 71.78574 times more than the 44 watts netted by food! This shows people do not need food. One's own spiritual power is 50 to a hundred times what's got from food!! A human body radiates about 8 times more power than the gross power in the food ate!! Shown in math-physics.

Gen 1:29 shows genuine food ate same way vegan animals eat it!! One gets all they need from the food of Gen 1:29. Vitamins, medicines, enzymes, & lots of food energy. More than double what's in meat diets! All one gets from the meat diets of Numb 11 is poisons, toxics, addictions and death! Just what the Father of Lies, (Gen 3:1-7), wants it to do!! Keep them as addicts forced to buy from him!! So he has a supply of fresh blood close at hand all the time! Kills a human being and drinks their blood. That's the Liar at Judges 4:21, John 8:44 & Rev 12:3-4. Good food leads to that good life promised by God, in all of these Great Scriptures.

Following a daily life style of Gen 1:29, results in growing back to our immortality and onwards back to divinity!! Without ever dying ever again forever & ever!! And into the great adventures of raising this legendary Lost City of Atlantis back to life again! Flying those Starships of Star Trek that extends reach of our souls to all points of Atlantis. It's 3.7 billion light-years to city limits of Atlantis. Our souls reach only the first 8 million light-years!! So, starships are needed. Same as cars now extends reach of our bodies. With God, the Father, this can be done now!

Atlantis is this universe & a volume of 125,447 trillion, trillion cubic light-years. It was got by Einstein with the shape as well. By using his data and the full works of both tensor derivatives & tensor integrals in tensor calculus, all points of Atlantis can be mapped out as was done, & ready for implementing starships, & expeditions in our city of Atlantis!
